PROFILE

Bachelor of Software Engineering (Hons) student seeking a 4-month internship placement from August until November 2026 I am eager to apply my technical knowledge within a professional environment to support organizational goals. I am committed to delivering high-quality work and maintaining strong professionalism in all tasks.

EDUCATION

Foundation in Information Technology *November 2022 - November 2023*
Universiti Selangor (UNISEL)

- CGPA: 3.60

Bachelor of Software Engineering(Hons) *November 2023 - Present*
Universiti Selangor (UNISEL)

- Current CGPA: 3.69
- Muet:Band 3.5

WORK EXPERIENCE

Retail(Part-Time) *September 2022*

- Aleena Global Sdn Bhd:Ensured smooth retail operations and quality control by assisting customers with product recommendations, managing regular inventory stock counts, and handling order packaging with strict quality checks.

Promoter & Reseller (Part-Time) *February 2025*

- Alaia Cosmetic:Maintained optimal booth operations and drove customer satisfaction by delivering professional product guidance, processing payments, monitoring inventory levels, and tracking daily sales reports.

Promoter & Reseller (Part-Time) *October 2025*

- Ma Chérie Studio : Boosted sales and customer satisfaction by providing personalized product recommendations, performing on-the-spot jewelry repairs/adjustments, and managing accurate daily sales reporting

PROJECTS & ACHIEVEMENTS

- **Develop Jelly Escape Mobile Game (2025)**: Developed a fast-paced 2D Android game using Android Studio. Implemented collision detection, dynamic obstacle navigation, and progressive difficulty scaling to enhance player engagement.

- **Project Manager | Barcode-Based POS System (2025):** Led a project group to design and deploy a barcode-based POS system for a local business, streamlining checkout workflows and enhancing daily operational efficiency.
- **Front-End Developer | Nusadagang Landing Page (2026-Ongoing):** Designed and developed a responsive, high-converting landing page optimized for modern web standards. Focused on intuitive UI/UX design, clean layouts, and seamless cross-device compatibility to enhance brand presence.
- **Final Year Project | Pick n Go Smart Parcel Locker (2026):** Architected and developed an IoT-based smart parcel locker system featuring a web application for locker requests and secure retrieval. Integrated ESP32 microcontrollers with Firebase Realtime Database for seamless hardware-to-software synchronization, and implemented automated triggers to send email notifications updating users on their request approval or rejection status.
- **Dean's List (Semesters 1–7):** Maintained consistent academic honors for seven consecutive semesters in Software Engineering.

ACTIVITIES & INVOLVEMENT

- Facilitator - Kem Perpaduan (2023)
- Participant - AI x Semiconductor :Blitzscaling Malaysia's Deep Tech (2025)

ADDITIONAL INFORMATION

TECHNICAL SKILLS

- Programming & Web Languages: Python , C++, Java, C#, PHP, TypeScript, JavaScript , SQL, Bash/Shell
- Frameworks & Libraries: React.js, FastAPI, Node.js, Express.js, Three.js
- Databases & Cloud: MySQL, SQLite, Firebase Realtime Database, PostgreSQL, RESTful APIs, HTTP/HTTPS
- Web Development & CMS: WordPress, Webhooks, Responsive Web Design
- Testing & Concepts: Software Testing (Manual & Functional Testing), Software Development Life Cycle (SDLC), Object-Oriented Programming (OOP), IoT System Integration, Microcontrollers (ESP32)
- Tools & Software: Git, GitHub, Postman, Canva, Microsoft Office Suite (Word, Excel, PowerPoint)

INTERPERSONAL SKILLS & WORK ETHIC

- Soft Skills: Strong Communication, Leadership Potential, Time Management, Team Collaboration
- Personal Attributes: Flexible & Adaptable, Punctual, Eager to Take On Challenges, Fast Learner
